## Llanfair Caereinion Town Council

### RISK ASSESSMENT FOR DERI WOODS AND GOAT FIELD LLANFAIR CAEREINION

No	Activity/risk	Risk	Action	Risk
1	General Risk – trips, obstructions, fencing, steps	LOW	Weekly inspections recorded and kept on file. Forms identify any issues which are addressed asap.	LOW
2	Works of repair and maintenance	MEDIUM	Carried out by a Volunteer Group under the supervision of a suitably qualified person and the MWT. Each activity has its own risk assessment prepared by the Volunteer Group.	LOW
3	Works requiring specialist tools or machinery	MEDIUM	Where chain saws, power tools and other specialist equipment are used a risk assessment is prepared by the Volunteer Group. The Town Clerk keeps a copy of certificates of those using such equipment.	LOW
4	Trees falling	MEDIUM	When a tree has fallen (reported for by inspection) a specialist contractor is used where the job is of a nature where the Volunteer Group is unable to do the work.	LOW
5	Weeds, undergrowth	LOW	The paths can be impeded by weeds and undergrowth. This is cut back at least 2 times a year. More when needed.	LOW
6	Paths	MEDIUM	Uneven paths are expected in a woodland area. If there are any specific areas of concern they are recorded and action taken to repair same or make safe.	LOW
7	Gates and fences.	MEDIUM	If there are any specific areas of concern they are recorded and action taken to repair same or make safe.	LOW
8	Seats and benches	LOW	A seats and benches are inspected weekly to ensure safety. All seats and benches are placed in good positions on level ground.	LOW
